M²'s strategy is to invest with small and emerging lower middle market buyout, growth equity, and special situation managers. M² makes primary fund commitments and in 2021 launched its co-investments platform. We seek to invest with high quality managers who demonstrate an elevated level of domain expertise, have extensive sourcing networks, and who can purchase companies at attractive entry valuations relative to the market.

TARGET INDUSTRIES

M² uses a proprietary portfolio construction model that helps us to build sound portfolios across accounts while managing risk. M² builds portfolios that are diversified by industry, region, stage, and vintage year. We seek exposure across buyouts, growth equity, special situations, and other later-stage strategies delivering buyout-like returns. We will target 10-12 managers assuring that we do not allocate more than 10% of any M² Partnership to an individual fund manager.

Our strategy is sector agnostic; however, we avoid investments with direct commodity risk and energy, in general.

INVESTMENT APPROACH

Advent's mission is to protect and grow our clients' capital. Bottom-up fundamental credit research lies at the core of every investment decision we make and each strategy we offer. We believe the union of both credit and equity research is critical to investing. Advent's philosophy is built on the belief that credit research leads to an accurate understanding of a security's downside while equity research helps us properly value the upside potential of our investments. Understanding both of these facets of an investment is critical to our thesis. We seek to produce consistent and frequent returns while generating alpha across all of our strategies through a demonstrated investment discipline of over 20 years. Our focus on capital preservation is a cornerstone of our global platform.

Elizabeth Park is a US Bank and Thrift specialist hedge fund that was started in 2008. We employ a fundamental, bottoms-up stock picking process focused on mid, small and micro-cap U.S. banks and thrifts. The combination of our team of 5 investment professionals with almost 130 years of experience with deep vertical expertise, proven investment process, team-oriented culture and focus creates a competitive advantage.

Elizabeth Park manages three fund products. Our EPCM Long/Short Equity product is a sector hedge fund focusing on U.S. Banks & Thrifts. The fund's objective is to achieve superior risk-adjusted returns while preserving capital. The fund targets a 12-15% net return with lower volatility with lower correlation to broader market indices.

We manage two long-only products. The EPCM Large Cap Bank Fund utilizes proprietary processes and analytics to beat the S&P Regional Bank Index. The EPCM Event Driven Fund capitalizes on bank consolidation and seeks to buy high quality franchises sought by multiple bidders. This fund tends to skew toward micro capitalization banks and targets 12-15% net returns with lower volatility and correlation to broader bank indices.
