#### **INVESTMENT FOCUS**

Dynamk specializes in growth equity opportunities in Life Science Industrials: the fundamental tools, technologies and services that are critical to biopharmaceutical discovery, development and manufacturing.

The Fund seeks to make equity investments in this under-served market, typically ranging between \$500,000 and \$10 million. We focus on B2B companies with proof of concept, revenues and customer engagement that are looking to scale commercially and supply to leading biotechnology and pharmaceutical companies globally. Life Science Industrials speed biopharma discovery, development and manufacturing, improving efficiencies, and increasing global access to critical biologics, vaccines, biosimilars and cancer immunotherapies. The B2B companies we target have lower capital requirements, do not require regulatory approval and are insulated from the binary outcomes associated with therapeutics. Dynamk fills a gap in the funding landscape - we are highly differentiated by deep domain knowledge and our ability to scale these businesses.

Otundi Ventures invests in high-growth, technology-enabled businesses across Africa. Otundi Ventures plans to deploy between \$1 million to \$10 million in companies that leverage technology to address some of Africa's acute business challenges: inefficient legacy infrastructure, market failure, and cost inefficiencies. Otundi actively supports its founders in building businesses with the potential to scale, becoming regional and global category leaders. We believe that access to Otundi's experience, knowledge and networks will help build stronger entrepreneurs, founding teams and businesses, creating additional economic opportunities that leave a legacy of impact across African communities. While the fund can invest in businesses across Africa (or those that serve African markets), Otundi's investment pipeline development activity is focused on core technology hubs that include, but are not limited to Egypt, Kenya, Nigeria and South Africa.

Advent's mission is to protect and grow our clients' capital. Bottom-up fundamental credit research lies at the core of every investment decision we make and each strategy we offer. We believe the union of both credit and equity research is critical to investing. Advent's philosophy is built on the belief that credit research leads to an accurate understanding of a security's downside while equity research helps us properly value the upside potential of our investments. Understanding both of these facets of an investment is critical to our thesis. We seek to produce consistent and frequent returns while generating alpha across all of our strategies through a demonstrated investment discipline of over 20 years. Our focus on capital preservation is a cornerstone of our global platform.

Elizabeth Park is a US Bank and Thrift specialist hedge fund that was started in 2008. We employ a fundamental, bottoms-up stock picking process focused on mid, small and micro-cap U.S. banks and thrifts. The combination of our team of 5 investment professionals with almost 130 years of experience with deep vertical expertise, proven investment process, team-oriented culture and focus creates a competitive advantage.

Elizabeth Park manages three fund products. Our EPCM Long/Short Equity product is a sector hedge fund focusing on U.S. Banks & Thrifts. The fund's objective is to achieve superior risk-adjusted returns while preserving capital. The fund targets a 12-15% net return with lower volatility with lower correlation to broader market indices.

We manage two long-only products. The EPCM Large Cap Bank Fund utilizes proprietary processes and analytics to beat the S&P Regional Bank Index. The EPCM Event Driven Fund capitalizes on bank consolidation and seeks to buy high quality franchises sought by multiple bidders. This fund tends to skew toward micro capitalization banks and targets 12-15% net returns with lower volatility and correlation to broader bank indices.

Heard Capital LLC is a global asset management firm based in Chicago, IL. The Firm was founded in 2011 invests in six sectors in which it has significant experience and expertise: technology, media, telecommunications, industrials, financials and energy. The regulatory structures, the competitive landscape, demographics, and historical biases create inefficiencies, and therefore investment opportunities, in these six sectors.

The Firm's investment approach is rooted in deep, fundamental analysis, focusing on misunderstood opportunities in which the Firm's domain expertise provides it with a unique lens to understand catalysts and value. The Firm analyzes investments on a global basis, utilizing a "bottom up" approach that identifies opportunities where the perception of value is not in line with the intrinsic value of the asset or situation. The firm actively manages exposures and uses position-sizing to manage risk and express conviction.

The Firm invests across two vehicles. Both embrace concentration, have low turnover and focus on long-term value creation:

- Heard Opportunity Fund is a long/short strategy that seeks to generate superior risk-adjusted returns while preserving capital in all market environments.
- Heard High Conviction Long Only Fund targets capital appreciation for investors with a longer investment horizon.

We take an active approach focusing on mispriced situations where our market, legal, and industry expertise can help unlock value by addressing technical or fundamental factors causing pricing discrepancies.

#### **INVESTMENT APPROACH**

Standard General's hedge fund vehicles seek to generate all-weather returns with moderate volatility and low correlation to the broader markets through a hedged investment program and idiosyncratic name selection. We invest long and short across the capital structure (i.e., loans, bonds, convertibles, public equities and post-reorganization equities). This cross-asset perspective allows us to seek-out the most compelling risk versus reward propositions regardless of the market environment.
