

Associate, Private Equity

Argand Partners is a New York and San Francisco Bay Area-based middle-market private equity firm that targets market-leading industrial companies with under-resourced and unrealized global growth potential. Argand companies have strong market share, sustainable competitive advantages, defensive characteristics, and significant growth potential supported by secular demand trends. The firm focuses on advanced manufacturing and business services companies with a strong U.S. nexus (headquarters, significant operations, primary growth market, or majority of revenue) and often significant global operations or expansion opportunities.

Argand is a growth-oriented control investor that engages with complex situations in order to buy well. The team employs a hands-on approach to partnering with management to create value across the investment lifecycle and help portfolio companies achieve their full potential as world-class, industry-leading companies.

In 2021, Argand was named a 2021 Top 50 PE Firm in The Middle Market™. The award is designed to acknowledge small and mid-sized leading private equity firms in the middle market. Argand is a signatory to the UN-supported Principles for Responsible Investment and the ILPA Diversity in Action initiative.

Job Description

Immediate- and Summer 2022-start opportunities for an individual to join the Argand Partners investment team. Working with a team of highly driven and dedicated investment professionals that value innovative thinking and diverse perspectives, associates will get to work in a flat structured, nimble environment supported by an inclusive culture and clear focus on high conviction-investing across a range of manufacturing and business services companies.

In this 2-3 year role (frequently leading up to business school), Associates assist the team in research, analysis and execution of potential investments and will have strong financial modelling and analytical skills as well as a sound commercial sense of what drives value in a business. Candidates will likely have 2-3 years of experience in investment banking, corporate advisory, or management consulting, and global experience is a plus. Associates will work across the full lifecycle of investing from origination through to execution and ongoing portfolio work that involves actively partnering with management teams to drive long-term value creation.

Argand is an equal opportunity employer, and candidates of all backgrounds are encouraged to apply.
